## A NEW Way- A BETTER Way WEalthSHARE©

There is a new way to make money, **serious money**, from home.

This is **WEalthSHARE**.

**WEalthSHARE** is a fantastic payment distribution system.

It is not a business opportunity at all. It is a way to share the wealth for select product sales.

Currently, our system is used exclusively for the products listed at [LAD15.com](http://LAD15.com)

**The world has changed dramatically in the past few years. Millions are out of work, and millions more soon will be. You might be one of them. Governments are going "belly up". Banks that are "too big to fail" are failing. Retirement funds have been plundered, either intentionally or through ignorance. The reasons are unimportant, if they are YOUR FUNDS for a better more comfortable life. Cities, Counties, States, and The U.S Government are broke, or so they say. They will all default on their commitments.**

Although the total tab for U.S. Congressman and Senators, including \$174,000/year salaries, \$161,000 for staff, per year, and another \$200,000 plus for office expense, plus perks and benefits, EACH x 635, **is never threatened**. And they are supposed to be the "servants of the people"

**WEalthSHARE** decided to develop a new way to earn a living, **without the greed** and pollution creeping through our society. It allows ANYONE, not just the elite, to take advantage of the tax savings for having your own business.

### **How can it benefit YOU?**

It IS designed to allow **anyone** to start generating an income, independent of a job or business, by reselling instructions on **HOW TO** do stuff. **We** maintain the site. **We** mail out the follow ups. **We** collect. **We** distribute the material. **We** pay you. We do all of this for you, so you DON'T HAVE TO DO IT, or learn it, if you don't want to. Once you have automatic, effortless money coming in, you are free to pursue other things. True Freedom! Just like the rich and famous, but for everyone.

These are things that should be taught in schools, but are not. These are methods that the rich teach their children so that they don't have to stand in line and **BEG** (apply) to become **voluntary slaves** to some factory or corporation.

Here are a couple of quotes from a very rich person from days now gone.

***“I would rather earn 1% off a 100 people's efforts than 100% of my own efforts.”***

-John D. Rockefeller

***“God gave me my money.***

***I believe the power to make money is a gift from God, to be developed and used to the best of our ability for the good of mankind.***

***Having been endowed with the gift I possess, I believe it is my duty to make money and still more money and to use the money I make for the good of my fellow man according to the dictates of my conscience.”***

-John D. Rockefeller

American Industrialist  
and Philanthropist,  
founder of the Standard Oil Company,  
1839-1937

Many don't want a business, **they want a way to earn an honest living** where they can do the work once, from home (or anywhere - with a “smart” phone, tablet or laptop), and then continue to be paid, **whether they participate actively or not**, once they have made a few initial sales to the right people.

Many programs have payment systems and matrices that benefit the founders only. Many pay a small percentage of actual sales volume out to members. **WEalthSHARE** shares the wealth, and **members are the main beneficiary**. LAD15.com sells **15 Steps The COMPLETE PACKAGE** for only \$187 for an entire YEAR! The **WEalthSHARE** system PAYS OUT \$160 of that, to our members, with zero qualifying or minimums. It is strictly a sales commission, distributed wisely, for a compounding effect.

This will change your life. Your future can be hopeful again. It is really not as hard, or as expensive, as many people think.

Knowing where to put the "X":

An elderly gentleman retired from his 40-year job as equipment maintenance engineer at a manufacturing plant. He was given a token parting gift by the company - no "golden parachute" or exotic pension plan. After he'd been retired for a few months, he received an urgent call from the plant manager. An expensive piece of machinery critical to operations had failed, and production had ceased as the equipment maintenance staff struggled to repair it. Hundreds of thousands of dollars were being lost each day the production line was down. The elderly engineer told the manager he would return to the plant to look at the machine, but as an outside consultant. The plant manager agreed, saying, "Anything you want, just help us out."

The engineer arrived at the plant, tested the machine and looked it over for about five minutes. He then walked over to the drawings of the machine and drew an "X" over a small component in the interior of the machine. "Replace this part, and the machine will work perfectly again, " he said. Then he left. The part was quickly replaced, and he was right - the machine began operating and production was up again within the hour.

Two weeks later the plant manager received a bill from the elderly engineer: \$50,000 for consulting services. Remembering the engineer had spent only five minutes looking at the machine and identifying the problem, the plant manager telephoned the elderly gentleman and angrily demanded a detailed invoice. The following day the detailed invoice arrived:

Time spent identifying the problem: \$5.00  
Knowing where to put the "X": \$49,995.00

We're going to show you where to "PUT THE X" ....The **WEalthSHARE** way.

**There are many, many, many ways to make money online!**

**WEalthSHARE is the easiest, LEGAL way to make money online today. Buy 1 complete package for only \$187, (or \$25/month) sell a few, to people you already know, and you will have your seed money. to start your own business online or off. Both methods are taught in the complete package.**

Each of us has our own unique set of circumstances, unique goals, and unique aspirations. We have diligently searched and sifted through **many many** different approaches to make money online, and off. We evaluated many different pay plans and structures. Since we only found *a piece from this one*, and *something from that one*, that was worthwhile, we decided to create our own. **WEalthSHARE** is the result of that search.

No matter what a **"SALES PAGE"** tells you, every program is **NOT** for everybody. That is why we will explain **many choices** and let you investigate what is right for you. Make the plan **fit you** and your desires and abilities, not the other way around. Only you can decide what's best for you.

Congratulations on educating yourself, and investigating another option for your new endeavor, as that is always the first step towards mastery of anything. **WEalthSHARE** is just a way for you to be able **to invest in yourself**, and your time, on what it is YOU really care about. And, it just so happens that is what **WEalthSHARE** is supporting, selling education.

Make an informed, educated decision that **works for you**, instead of **you working for someone or something else**.

The rewards are tremendous in : Time, Money, Freedom, and the ability to help others with what you learn. Keep in mind that you can learn equally well from **WHAT TO DO**, as you can from **WHAT NOT TO DO!** It is all still learning.

**Some people sell dirt.** No, Really! Some people sell dirt, and make great money. I once knew a person who had a fleet of trucks, and excavating dirt (for a fee) and brought it to someone who needed fill (also for a fee). He sold dirt removal to one person, and dirt to another. That is GREAT BUSINESS. When you get paid for your raw materials and get paid for the finished product, and **they are the same thing**. Please don't think that **you** can't make money. If that guy (who made millions) can get plum rich selling dirt, he got paid to take away, then there is hope for the rest of us.

**WEalthSHARE** lets you **make money teaching people how to make money** without first having to learn and practice it yourself, or teach them at all. Just like selling dirt. Only you don't have to learn it first, and then implement it. You can **BE PAID WHILE YOU LEARN.**

Unlike a college or university program that takes your money for 4 years (or longer), under the premise that you will reap the rewards for years to come, that sometimes happens and sometimes does not, we let you reap the rewards **NOW, as you learn.**

**Start Learning today. Start Earning Today!**

There are millions of success stories, big and small. **Are you the next FED EX, or Google, or Waste Management, or Angie, or Craig? You just might be.** Do anything better than anyone out there and you have a chance to succeed. There is always a way to do something better. What can you do to contribute to society?

We haven't had a major CURE for anything in the last 50 years. Our Technology is better. We are throwing more money at the problems than ever. We have more, and better, doctors and scientists than ever. We have completely mapped the entire human genome. Yet there are only more questions, and more diseases, than ever! **Money has gotten in the way of medicine.** It is much more profitable to **TREAT** diseases, than it is to **CURE** them. Treatments are now for "the rest of your life". That's great for an accountant, not so hot for the patient.

**WEalthSHARE** is not the CURE for things in your life, but **it may help** you get there. If you are free to follow your passion (not tied to a JOB), you may be the one who can come up with a cure, or invention, or piece of music, or art, or whatever your TRUE passion is. And we certainly want to encourage you to do so. If someone has the means to pursue their passion, because of this work, and accomplish something good for mankind, I will sleep soundly, as that is my intention. We believe that many will, and may very well revolutionize the planet.

**We are not trying to convince anybody of anything. We are allowing you to join the future with us.**

Many assume, that since they associate home with relaxation and leisure, that they can sign up, pay a fee, sign up for an auto-ship, and kick back, and watch the money roll in. Let's get real. You will have to **do something to get something**.

The NET is **absolutely the best way to generate large incomes**, but large incomes come from smart and/or hard work, just like in the real world. There are huge physical, emotional and monetary rewards for BUILDING YOUR OWN BUSINESS (online or offline). We are here to help you avoid some of the most common mistakes, and allow you to prosper with the 5%-15% who do succeed.

If you want to pay \$500 and come out with the possibility of a \$10,000 payoff with little or no effort, I suggest you go to a [casino](#).

We believe that **WEalthSHARE** is a great starting point, a way to generate an increasing amount of income **without** an increasing workload (in fact the workload decreases or becomes non-existent), thereby freeing up your time, energy, and motivation, to create anything that you desire.

Please carefully consider the following reasons for starting your own business and check all that apply to you:

- Financial Freedom       No Commute       No Employees
- Low Start up Costs       Time Freedom       Co-Workers are Lazy
- Boss is Mean       Boss is Incompetent       Boss/Owner is Cheap
- I Am Worth More       My Time is Worth More       Miss Events
- All Work and No Play       No/Not Enough True Vacation Time       Miss My Family

If you are ready to give **110%**, **stop lying to yourself**. **100% is everything you can possibly give. 100% is all, complete, 100%. You cannot give more than you have.**

Slowly we have all brainwashed both ourselves, and others, that when we give 50% (1/2), that is enough. Then, when we ratchet it up to say 60%, we say we are giving 110%, when in fact we are still at 60% of our true capacity.

**STOP LYING TO YOURSELF** (your new boss) if you want to be successful in business or in any endeavor.

**Being in Business** requires time, knowledge and money. If you don't have all of these, in sufficient quantities, you will fail. The major reason for all small business failures is **under capitalization** (NOT ENOUGH MONEY). That is the cold hard fact. At the start, more time and money are going **into** the business, than is available to take **out**. When done well, with the right plan, your money will come out (profit), and you will spend less money, and use less time. This is the exact opposite of a job. And **knowledge is forever**.

In business, you must make more than you spend. That simple and that difficult.

Governments, conversely, do not adhere to this principle. Maybe that is why most governments are NOT successful, and need to spend so much on police, military, and jails: to mandate support. Could government be run like a business? Absolutely. It is harder, and takes more wisdom and effort, but it could be done.

**DO NOT TRY TO BUILD YOUR BUSINESS LIKE A GOVERNMENT.**  
**IT WILL FAIL.**

Government does not understand that you must  
**Always Take Care Of Your Customers FIRST!!!!**

**WEalthSHARE** endorses the theory that "If you can't do something right and legitimate-DON'T DO IT AT ALL!"

Do you need hundreds or thousands to visit you site or affiliate program, just to make a decent income? **NO. YOU DO NOT!!!!!!!!!!**

Do you believe "*them*" when "*they* " tell you, that "100 hits to get 2 people is good", (2%)? or even average? Or normal?

Let me tell you something that you already knew. A 98% FAILURE RATE is NOT ACCEPTABLE in any business. That is why 87%-98% of businesses FAIL. Please, don't buy into the fact that 2% success at anything, is GOOD! Even weathermen and stockbrokers have a 50-50 chance of success. That's 50%. That's the minimum you should accept. Why promote something on a 2-98 ratio. If that's what your upline says-GET OUT.

a 98% Failure rate is Dismal! Horrid! BAD! Failure!

**Whoever came up with that .....is a LOSER!**  
**Whoever promotes this theory .....is a LOSER!**  
**Whoever believes it .....is a LOSER!**

**Don't Follow LOSERS! Follow winners. That's the easiest way to win.**

Would you use a Doctor that scored a 2% on his/her doctoral thesis/medical exam? (They would NOT be allowed to Practice Medicine)

How about an Accountant who scored 2% in Math?  
(They would NOT be able to Get Certified)

Do you want a Lawyer who got a whopping 2% on his/her Bar Exam?  
(They would NOT be allowed to Practice Law)

How about your pharmacist who scored a 2% in Apothecary medicine?

NO!!!!!! Of course you wouldn't!! Why follow a loser in business, to teach you how to run a business.

I've seen some marketers brag that 16% is GREAT, and "more than they ever hoped for." Sorry, but I have NEVER considered an 84% Failure rate as GREAT! It's just not good enough.

I

IF you truly TARGET your marketing, half of them (or more) **already want** what you have.

Those 2%'ers are throwing dung/scat/poop at the wall, hoping some will stick!  
You will have better odds at a craps table (in a casino-LOL), no pun intended.

With that in mind, our program averages a **50% or higher opt-in rate**, and a **100% success rate** for those who can get **the right 3** to join them. If you don't have 3 people who you ALREADY KNOW, that could use some extra time and / or money in their life right now, then this program **MAY NOT WORK FOR YOU!** Just being honest. I told you earlier that every plan or program IS NOT for everybody, and that includes us. The difference with **WEalthSHARE** is, YOU are in control. **You are responsible** and you shall reap your own reward/success. That's what you have right now, in **WEalthSHARE**. Responsibility. Not some matrix or spillover concept. True Self Determination. There are only be 2 possible answers: **“YES” or “NO”**. Anything other than a **“YES”** is a **“NO”**. There is no *"maybe"* or *"later"*. ONLY **YES** or **NO!**

Half of those who see this, *“get it”*, and 1/2 won't. Very simple. Pure mathematical fact. **YES or NO.**

Either way, NEVER let a commission get in the way of a friendship or relationship. Those are infinitely more important than any commission - EVER!

### **One size DOES NOT fit all.**

One size does not fit all! Let's get real here. People who want to make money online, or work from home, have as many different reasons, excuses, and levels of experience and expertise, as there are people online. For us, or anyone else, to presume that we have your answer in a single product or service is crazy.

The one thing that we do have, is a commitment to financial freedom for all who choose to pursue it, and have put our money where our mouth is producing such a system, for all to use, as their starting vehicle..

The reason we sell "***The Complete Package***" is so that you can become more educated and apply **only what you want**, to make your life, or the lives of others, better. And giving you a source of income to pursue your dreams, and finance those efforts. And to free up your time from either having, or looking for, a job.

The tricksters (Internet Gurus) would like you to believe that you can make the kind of money they make, in a few short days or weeks! It is **NOT TRUE!!!!**

They have spent thousands of hours and thousands of dollars to learn their craft. Do you really think that they will now give you, a total stranger, the "keys to the Kingdom" for \$49, \$67, \$259 or even \$2,995? Of course they won't. And, just a tip on "**SECRETS**". If they are selling it to anyone who has the money, **IT AIN'T A SECRET ! IT'S A PRODUCT!!!!** Duh.

For some \$187 is a lot of money. To others it is not enough to purchase a substantial education. Some are throwing away money on cell phone bills or cable or satellite bills, when **those things are not helping them** get where they want to be. Others may choose to sell something to get involved in a life altering course (TV/Car/Anything). Some may choose to "team up" and share the costs to get involved. (As in 3 people teaming up with \$63 each, and each one getting 1 person to buy, then using that profit to purchase #2 his/her own Complete Package, and repeating it for #3 to get their own.) No one has a reason not to better their life, only excuses.

Only you know if you have:

- A) some money to invest,
- or B) some time to invest,
- or C) both.

Only you can know if your **fear of change** is less than your **fear of staying the same**.

If you save \$150, and it takes you 50 hours, you have paid yourself \$3/hr. If you save \$150 and it took 10 minutes (\$900/hr), that's a different story. Now, I don't know about you, but \$3/hour is not my idea of a good time. \$900/hr is OK.

You are the ONLY JUDGE to what **your time is worth**.  
**WEalthSHARE** is just a tool to help you with your time.

**"When a butterfly flaps its wings...."**  
And it all started with a dollar

New Years Day  
I gave a dollar each to my wife and kids  
Then I grew it, and gave out  
20 - \$1 bills, randomly, to strangers

I gave a dollar to a homeless man  
Who bought some mac and cheese  
Cooked it on their barrel  
for all to share

One of those he shared it with  
Stumbled upon a car wreck  
He had enough energy from the food  
To help save a little boy

The little boy grew up  
He studied hard and studied well  
And created a cure for cancer  
And it all started with a dollar.

Now in this story, neither I or the homeless hero created a cure. But our actions,  
no matter how small, helped.

I always give a dollar to my wife and kids on New Years Day. That way, they can start the New Year richer than the previous one, and, **all year long**, they cannot say "***you never give me any money***". It's a win-win.

Amazing things can happen when chain reactions are set in motion. That is the purpose of **WEalthSHARE**.

We want you to have enough money to start your own business: online or off. Or to travel. Or to learn a new hobby. Or to volunteer. Create a cure. Whatever it is that YOU WANT TO DO.

All you have left to do is sell a few copies. That's it. We'll send them their books. We'll collect. We'll even give them their own link for free! And you will get paid just for inviting good people who want to change their lives permanently, when they purchase. See, **WE SHARE**.

When you buy The Complete Package, you are already helping 6 people toward their dreams. You can feel good about that, right from the start. And when you sell, that person is helping you and 5 others. It's so simple, and amazingly powerful, at the same time. Come join us now.

If you have enjoyed this free, no sign up required, report on **WEalthSHARE**, with no tricks or gimmicks, no bells and whistles, no hoops to jump through, then you may very well enjoy, and learn from, the material in **SABO** and **15 Steps**. Otherwise, we hope that we taught you a little more than you knew before you started, and wish you great success.

Enjoy, and help to change the world, a little bit at a time.
